<b>Chapter 5 The Global Environment</b> .....	169
Exploring and Understanding the Global Oceans.....	171
Research and Survey Programs.....	172
Marine Geology and Geophysics.....	172
Marine Biology.....	172
Physical Oceanography.....	173
Polar Seas.....	173
Decade of Ocean Exploration.....	174
The Technology.....	175
The Global Monitoring and Prediction System.....	181
System Operations and Management Arrangements.....	182
A Program for Immediate Improvement.....	188
The Technology for NEMPS.....	191
Research.....	194
Environmental Modification.....	197
An International Framework: Organizational and Legal.....	198
International Organizations.....	199
A Legal Framework for the Conduct of Marine Research.....	201
Program Costs.....	205
<b>Chapter 6 Technical and Operating Services</b> .....	209
Mapping and Charting the Oceans.....	209
Navigation.....	213
Safety at Sea.....	215
Control of Offshore Traffic.....	215
Certification.....	215
Search and Rescue.....	216
Recreational Boating.....	216
Underwater Safety.....	217
Policing and Enforcement.....	217
Data Services.....	218
Instrument Testing and Calibration.....	221
Program Costs.....	224

<b>Chapter 7 Organizing a National Ocean Effort</b> .....	227
Federal Organization for Marine Affairs.....	227
A National Oceanic and Atmospheric Agency.....	230
Organization and Functions.....	230
Capabilities of the New Agency.....	234
Considerations Relevant to the Recommended Agency Transfers.....	236
Overseeing the National Program.....	244
Operational Planning and Coordination.....	244
National Advisory Committee for the Oceans.....	245
Executive Office of the President.....	246
Congressional Oversight.....	247
Conclusion.....	249
<b>Chapter 8 A Financial Plan for Marine Science</b> .....	251
The Commission's Approach to Cost Estimates.....	251
Present Funding Levels.....	252
The Commission's Estimates: An Overview.....	254
A Budget for the National Oceanic and Atmospheric Agency.....	258
Conclusion.....	258
<b>Epilogue</b> .....	260
<b>Appendix 1 Public Law 89-454</b> .....	261
<b>Appendix 2 Table of Recommendations</b> .....	267
<b>Appendix 3 The Operations and Task of the Commission</b> .....	278
<b>Appendix 4 Commission Studies and Reports</b> .....	283
<b>Photo Credits</b> .....	286
<b>Index</b> .....	289

<b>Chapter 1 An Introduction and Summary</b> .....	1
Our Stake in the Uses of the Sea.....	1
A Plan for National Action.....	4
<b>Chapter 2 National Capability in the Sea</b> .....	21
Advancing Marine Science.....	23
University-National Laboratories.....	25
Coastal Zone Laboratories.....	27
Federal Laboratories.....	29
Naval Research.....	29
Diversity of Support.....	30
Advancing Marine Technology.....	30
Fundamental Technology.....	35
National Projects.....	37
Industry and Universities in Marine Technology.....	38
The Navy in Marine Technology.....	40
Manpower for the National Capability.....	43
Information and the National Capability.....	44
Costs for National Capability.....	44
<b>Chapter 3 Management of the Coastal Zone</b> .....	49
The Nature of the Coastal Zone.....	49
Intensification of Coastal Zone Usage.....	52
A Proposed Coastal Management System.....	56
Functions and Powers of State Coastal Zone Authorities.....	57
Management in Interstate Estuaries.....	60
Federal Role in Coastal Zone Management.....	60
Information Needed for Coastal Zone Management.....	62
Opportunities for Coastal Development.....	69
Moving Operations Offshore.....	69
Special Attention to Recreation.....	70
A Plan for "Seasteads".....	72
The Pollution Problem.....	72
Program Costs.....	79

<b>Chapter 4 Marine Resources</b> .....	83
National Resource Policy.....	83
Development of the Sea's Living Resources.....	86
Marine Fisheries.....	86
The Ocean's Food Potential.....	88
World Production and Demand.....	89
Principles of Fisheries Management.....	90
Rehabilitation of U.S. Domestic Fisheries.....	94
International Fisheries Management.....	104
Aquaculture.....	115
Sea Plants.....	118
Extracting Drugs from the Sea.....	119
Development of Nonliving Marine Resources.....	121
Petroleum.....	122
Natural Gas.....	127
Other Marine Minerals.....	130
Fresh Water Resources.....	137
Pre-Investment Surveys.....	139
Federal Agency Roles.....	141
An International Legal-Political Framework.....	141
Existing Framework.....	143
Recommended Redefinition of the Continental Shelf.....	143
Recommended Legal-Political Arrangements for Subsea Areas Beyond the Shelf.....	146
Relations between the U.S. Government and Private Firms in Registering Claims.....	153
A Proposed Course of Interim Action.....	155
Government-Industry Relationships.....	157
Government and Industry Roles.....	157
Industrial Activities and Attitudes.....	158
Capital Sources and Requirements.....	159
Legal and Regulatory Framework.....	160
Technology and Services.....	161
Collaboration in Planning.....	166
Program Costs.....	166
